Is an interesting thing to a man who is using a pump daily and finds that the Plunger of his pump is all worn out.

They are such simple little things, and yet so much easier to stamp out by machinery than to cut out by hand.

We have a complete stock of PLUNGERS, LEATHERS, CUP LEATHERS and BOTTOM VALVES, little items that make a pump as new and without which a pump is just so much old iron. Every thing needed in the way of Pumps and extras for Pumps at

## COUNTY BILL WORK

The real work on the second reading of the County Bill before the caucus of Republican legislators, will take place this evening, beginning at 7:30 o'clock. There would have been a start last night but for the fact that through a misunderstanding, R. W. Breckons and the members of the Republican Commission, which framed the bill under consideration, were not properly invited to be present. It was therefore the sense of the caucus that the work be started tonight, at which time Mr. Breckons will make an address which it is calculated, will result in the bill going through free from a great many of the amendments introduced on first reading. A committee of three was appointed by the chair to send the proper invitations.

A large number of communications to the Central Committee in response to a general request that suggestions be sent in, were read at the meeting and filed for future reference, each legislator present being charged with the duty of attending to those pertaining to his particular district. Prominent among the communications was one from Governor Dole, suggesting various amendments.

Cleghorn in 1889 as collateral security.

Dr. F. L. Miner has returned and can be found at his old offices, corner Perpetua and Union streets, after New Year's. Telephone 489.
